II. SUMILLA

” La asignatura pertenece al área de Estudios Complementarios; es de carácter obligatorio, de naturaleza práctica y tiene como objetivo el desarrollo de la competencia comunicativa en la lengua extranjera a nivel intermedio”. Inglés Médico I es el primero de un sistema de dos cursos prácticos de naturaleza taller que tiene como objetivo el desarrollo de la competencia comunicativa en la lengua extranjera a nivel intermedio. Se desarrolla la comprensión auditiva, expresión oral, comprensión de textos y expresión escrita, integradas a la adquisición del sistema de sonidos, el sistema de estructuras gramaticales y el vocabulario que utilizarán en forma contextualizada en situaciones nuevas. Todo ello orientado hacia el manejo de temas de interés profesional. El curso provee al estudiante de conocimientos, hábitos y habilidades que utilizará en su desempeño profesional.

III. COMPETENCIAS GENÉRICAS A LAS QUE CONTRIBUYE LA ASIGNATURA

III.1 COMPETENCIA GENÉRICA: Comunicación efectiva: Comprende, construye, transmite mensajes coherentes, asertivos y de alto impacto que influyen en los demás usando múltiples modalidades, formatos y soportes en su lengua materna o en una segunda lengua nativa y lengua extranjera, de preferencia inglés.

III.2 COMPETENCIA ESPECÍFICA: Aplica sus conocimientos de inglés para el manejo de las nuevas tecnologías de información y comunicación para la búsqueda y consulta bibliográfica de las ciencias médicas, la participación activa en eventos académicos y científicos internacionales, en el desarrollo de la investigación y la publicación de artículos científicos.

IV. DESARROLLO EL COMPONENTE DE INVESTIGACIÓN FORMATIVA Y RESPONSABILIDAD SOCIAL

El curso de Inglés Médico 1 tiene como objetivo no solo mejorar las habilidades comunicativas en inglés de los estudiantes en un contexto médico, sino también fomentar una comprensión crítica de la investigación formativa y la responsabilidad social en el ámbito de la salud. Se busca sensibilizar a los estudiantes sobre su rol como futuros profesionales de la salud y su responsabilidad hacia la comunidad.

V. LOGRO DE LA ASIGNATURA

Al finalizar la asignatura, el estudiante se comunica oralmente y por escrito, expresando ideas, opiniones, experiencias e información en forma autónoma, observando corrección gramatical y fluidez en el discurso y demostrando respeto por sus interlocutores y una actitud responsable frente a las situaciones planteadas en el curso.
